

# HOT Sheet

## Hot DESIGNS

Love Rachel Bilson's dress? It's just one of the 13 stylish pieces in model/actress Amber Valletta's new collection for Monrow clothing. Rachel's pleated silk frock retails for \$398; the rest of the line, which includes a fringe-accented cape and tissue jersey tees, starts at \$115. You can peruse the items at [ronherman.com](http://ronherman.com) or at Bergdorf Goodman stores.

## Hot INVITE

Paperless Post is an online invitation service that offers the same quality as the most luxurious stationery. Choose from a variety of heavy card stock paper images and then personalize away with anything from a delicate script font to a foil stamp. Your creation is then e-mailed to in-boxes in a virtual envelope with an RSVP-tracking system that lets you monitor replies. It's fast, eco-friendly and cheaper than snail mail: Basic invites are free, and 40 "stamps" are just \$5. [paperlesspost.com](http://paperlesspost.com)

Elizabeth Arden Red Door Spas, which have branches throughout the country, just opened an outpost in Seattle! The beauty haven offers an array of classic services, like pedicures, plus signature treatments such as the Ultimate Arden facial, which also includes a tranquil warm-stone massage and a lip or brow wax for \$180. Katherine Heigl has enjoyed the massages, reps say. [reddoorspas.com](http://reddoorspas.com)

## Hot SWEETS

Spoil a friend, coworker or even yourself with delicious cupcakes from Georgetown Cupcake. The bakery is famous in their hometown of Washington, D.C., and lucky for us they've just launched nationwide shipping! The confections are available in special seasonal flavors (January's are Toasted Marshmallow and Salted Caramel) and designs (like the Valentine's Day red-velvet cupcakes topped with red fondant hearts). \$55 per dozen (includes overnight shipping). ## Hot DJ

Looks like songstress Leona Lewis is adding DJ to her list of talents! She recently scooped up the Fashionation iSpin — a portable device that lets you plug in any two MP3 music sources (i.e. iPods) so you can spin, reverb, flange, filter and fade just like a real mix master! \$199.
